Ans: Governor-General **Lord William Bentinck** passed the Sati Prohibition Act in 1829.

Q.4) Answer the following questions in 25 to 30 words (Any Three): (6 Marks)

a) Which monuments are considered as historical monuments?
Ans: Palaces, forts, prisons (such as Cellular Jail), colonial administrative offices, and national memorials built during historical eras are considered historical monuments as they reveal architectural, political, and socio-economic facts of that era.

b) What is meant by Imperialism?
Ans: Imperialism is a system in which a powerful, industrialized nation asserts comprehensive political, military, and economic domination over weaker or underdeveloped nations to establish colonies and extract wealth.

c) What were the functions of the military under British rule?
Ans: (1) To defend British Indian territories from external invasions, (2) To conquer and annex new territories across Asia, and (3) To ruthlessly crush internal rebellions and resistance movements organized by Indians.

d) What were the social causes behind the struggle of 1857?
Ans: Indians felt the British were encroaching on religious and cultural traditions through laws like the Sati Prohibition and Widow Remarriage Acts, coupled with rampant racial abuse and discriminatory treatment in public life.

PART II: CIVICS

Q.5) A) Choose the correct option and rewrite the statement: (3 Marks)

a) Parliamentary System of government developed in **England**.

b) In the Presidential System **President** is the executive head.

c) **Rajya Sabha** is the Upper House of the Parliament.

Q.5) B) Concept Maps: (4 Marks)

1) Types of Government Systems

- Parliamentary System (India, UK)
- Presidential System (USA)

2) Indian Parliament Structure

- President of India
- Lok Sabha (Lower House)
- Rajya Sabha (Upper House)

Q.6) A) Complete the Information in the following table: (3 Marks)

Name of Institution	Primary Constitutional Functions
Legislature	Frames, deliberates, modifies, and passes legislation/laws for the nation.
Executive	Enforces and implements laws passed by the legislature and runs daily administration.
Judiciary	Interprets statutory laws, settles legal disputes, and protects the fundamental rights of citizens.

Q.6) B) Answer in 25 to 30 words: (4 Marks)

a) Explain the functions of the Speaker of Lok Sabha.
Ans: The Speaker conducts the proceedings of Lok Sabha impartially, maintains discipline and parliamentary decorum, enforces house rules, and upholds the rights and privileges of all Members of Parliament.

b) What is Responsible Government?
Ans: In a parliamentary system, the Prime Minister and Council of Ministers are directly answerable to the Legislature for all actions and policies. Because they survive in office only while commanding the confidence of the Legislature, it is termed a Responsible Government.

PART III: GEOGRAPHY

Q.7) A) Complete the sentence selecting the correct option: (4 Marks)

a) The difference between the local time of any two consecutive longitudes is **4 minutes**.

b) The proportion of water vapour in the air is called **Humidity**.

c) **Continental shelf** part of the ocean floor is most useful to man.

d) Ocean currents hold great importance for **human** life.

Q.7) B) Examine statements and correct the incorrect ones: (4 Marks)

a) The density of various materials is not the same in the interior of the earth. → **Correct.**

b) Cumulonimbus clouds are indicators of a pleasant atmosphere. → **Incorrect.**
Correction: Cumulonimbus clouds indicate **thunderstorms and heavy rainfall** (Cirrus/Cumulus indicate pleasant weather).

c) Around 51 percent of the surface of the earth is covered by water. → **Incorrect.**
Correction: Around **71 percent** of the Earth's surface is covered by water.

d) Deep ocean currents flow with high velocity. → **Incorrect.**
Correction: Deep ocean currents flow with **slow / low velocity**.

Q.8) Answer the following questions in one sentence each: (4 Marks)

a) What are the main types of ocean currents?
Ans: By temperature: **Warm currents** and **Cold currents**; by depth: Surface currents and Deep ocean currents.

b) Which type of clouds give rain?
Ans: Nimbus, Nimbostratus, and Cumulonimbus clouds cause rainfall.

c) What is evaporation?
Ans: Evaporation is the physical process by which liquid water transforms into gaseous **water vapour** due to heat.

d) What are the two parts of the core?
Ans: The **Outer Core** (liquid/semi-liquid) and the **Inner Core** (solid).

Q.9) Answer the following questions in brief (Any Two): (6 Marks)

a) What are the two parts of the crust? What is the basis of classification?
Ans: (1) *Continental Crust* (dominated by Silica and Aluminium - **Sial**) and (2) *Oceanic Crust* (dominated by Silica and Magnesium - **Sima**). They are classified based on their **location** (landmasses vs. ocean floor), **density**, and **mineral composition**.

b) What is a cloud? Write its types.
Ans: A cloud is a visible accumulation of microscopic water droplets or ice crystals floating suspended in the air at high altitudes. Types by altitude: (1) *High clouds* (Cirrus, Cirrocumulus, Cirrostratus), (2) *Medium clouds* (Altocumulus, Altostratus), (3) *Low clouds* (Stratocumulus, Stratus, Nimbostratus), and (4) *Vertical clouds* (Cumulus, Cumulonimbus).

c) How is humidity measured?
Ans: Humidity is measured using an instrument called a **Hygrometer** (Dry & Wet bulb thermometer). It is expressed as: (1) **Absolute Humidity** (mass of water vapour per cubic metre of air, in g/m^3), and (2) **Relative Humidity** (percentage of moisture present compared to the maximum capacity at that temperature).
